## Stylish Design

## Stylish Remote Controllers※

PC-ARF

Press any of the operation buttons, and the backlight comes on to make the controller's screen easier to see.

The whole Power button lights up in green so the unit ON/OFF status can be recognized at a glance.

The controller now features a simple arrow button to facilitate the main control such as "Temperature setting," "Fan mode," "Fan speed," "Operation mode," etc. Just press arrow bottom and to choose the item to control.

***Just touch  
the screen***

Eazy control with 8.5 inch color touch panel  
Its down-to-detail control functionalities, such as Weekly Scheduling, Accumulated Work Hours, etc., help you save energy.  
Up to 64 remote-controlled groups and up to 160 indoor units can be connected to the single air-conditioning system.

※ N series is not available.

# Inconspicuous and Small

Multiple indoor units can be connected to one outdoor unit, which is why fewer outdoor units are required. This helps to save more installation space and so increases flexibility in installation location. ※

## Lighter and smaller

Since it is lighter and smaller less installation space is required, making it easier to access the machine for installation and subsequent maintenance.

## Reduction of installation area

※ N series is not available.

# Energy Saving

## TOP Calss EER IVX series

## Easy central control IVX series SET FREE ※

EZ helps energy-saving in a more efficient way.

※ N series is not available.  
※※ In case 4units of PSC-5HR are required.

## Individual Operation IVX series SET FREE ※

Individual operation makes it possible to keep one room/ multiple rooms comfortably and efficiently air-conditioned.

※ N series is not available.

## Motion sensor control (Optional) RCI-FSN3 RPC-FSN3 ※

The air conditioning capacity is saved automatically depending on a situation and detecting amount of human activity by adopting the motion sensor on the corner of the air panel. The energy-saving can be improved more with the individual operating function. In addition, the operation can be stopped automatically if the absent situation continues for more than 30 minutes.

The motion sensor allows maintaining the comfortable indoor environment and eliminating the unnecessary operation.

※ In case P-AP160NAE is required.

## Installation Flexibility

Facilitation and flexibility on installation are further advanced by adopting outdoor unit's light weight and compact design.

Improved flexibility of design by increasing the max piping length.
